

# FOR SALE: ACCU-KUT CNC Plasma Table

6'x12' CNC Plasma Table  
Hypertherm HPR130  
High Definition Plasma Power Source

This machine is currently in use and we would also offer 2 days of training.

The ACCU-KUT CNC Plasma Table is approximately 2 years old and will come with MTC PRONEST Software.

Machine also comes with a Farr Gold Series® Dust Collector.

More photos are available at [www.InTheDitch.com](http://www.InTheDitch.com)

Buyer is responsible for disassembly of machine at our location in Mountain Home, Idaho. We will help load machine with our forklifts. We have spent approximately \$185,000 for this package.

## BUILT TO BE THE BEST

### accu-kut unitized CNC plasma cutting system

**Friendly In-House  
Sales & Service**  
800-962-7803

[Request  
Information](#)

The AKS **accu-kut** combines the best in CNC plasma cutting technology with over 90 years of superior machine building experience. The AKS **accu-kut** is manufactured to machine tool standards and is the premium platform for all precision high performance plasma cutters.

#### General features of the AKS **accu-kut**:

- **Compact unitized heavy-duty design with fully welded and machined frame**, provides a long-lasting, very stable platform for accurate plasma cutting
- Cutting widths of 6 ft. (1.8 m), 8 ft. (2.5 m), and 10 ft. (3.0 m)
- **Available in large sizes up to 10 ft. x 48 ft.**
- Cutting lengths available in 10 ft. (3.0 m), 12 ft. (3.6 m), 22 ft. (6.7 m), 24 ft. (7.3 m), 34 ft. (10.3 m), 36 ft. (11.0 m), 46 ft. (14.0 m) and 48 ft. (14.6 m)
- **Low mass bridge assembly** fabricated from high strength extruded aluminum, provides fast and smooth motion response and produces optimum part accuracy
- **Latest technology digitally controlled (dual X-axis) AC brushless servo drive system** using helical rack and pinion in both X- and Y-axis provides maximum acceleration, smooth performance and most accurate motion control
- **Hypertherm Automation MicroEDGE PC based Windows® CNC controller** with multi-tasking, easiest to learn and use large color LCD touch screen, network connectivity and optimum quality process control data base technology
- **Multi-zone air-downdraft system** offering efficient smoke control
- **Arc Voltage torch height control**, offering reduced cycle times, reduced kerf angle, and improved consumable life
- **QuickSTOP torch collision safety mount**
- Available with either **Precision or Conventional Plasma Systems**

8 ft. x 22 ft. **accu-kut** shown

Fully welded construction using 3/8" thick square tubing for strength and durability.

[>> More about the heavy-duty construction](#)

Dual torch systems, oxy-fuel option, additional tools.

[>> More about torch and tooling options](#)

Low mass, high strength bridge assembly for speed and accuracy. Dual drive X axis provides maximum acceleration and accurate motion control.

[>> More about accu-kut's precision motion controls](#)

Windows-based MicroEDGE CNC controller with network connectivity and process control data base technology.

[>> More about the control software](#)

3/8" thick steel heavy duty downdraft zone deflectors.

Torch height control improves cycle times, kerf angle and consumable life.
